SHEFFIELD NORTH ACTIVE LEISURE CENTRE

Building could start as early as December 2014 and will be completed by January 2016.

Sheffield City Council in partnership with the National Centre for Sport and Exercise Medicine, Sport England and Ecclesfield Parish Council is proposing the development of a new swimming and leisure facility to serve the north of Sheffield.

Why are you calling it ‘North Active’?

It’s a working title for now – but we wanted to get across that the new facility is more than just a pool. The health activities and consultation rooms will be a new venture in bringing health and activity together in a seamless way under one roof and will include the following facilities:

- 25m six lane swimming pool
- Learner pool
- Gym with 40 exercise stations
- Exercise / dance studio
- Health consultation rooms

The proposal is to develop the new facility on the Thorncliffe Recreation Ground in High Green. This is the preferred location because it provides an excellent opportunity to complement, enhance and develop sport for the whole site, with access off Pack Horse Lane. This access will include long awaited improvements to the Lane including the installation of a new footpath. It is expected that these improvements will improve road safety and benefit neighbouring properties, including the school. The facility will have its own car park so will not create traffic issues on Park Horse Lane.

Find out more

On Tuesday 22nd July Kier Construction, the design and build team, will be in Chapelton Pool from 2pm to 4pm and Ecclesfield Parish Council Community Room from 4.30pm to 6.45pm to talk to interested individuals. There will be displays and computer images of the proposed new design.

Please come along, talk to the team and share your ideas.

This leisure centre is for the local community: Please have your say!

For further information, please contact the capital Delivery Service on 273 5628, or email cds@sheffield.gov.uk
